PILOT Application Summary: Mr. Sorotzkin's entity, Capstone Hillcrest LLC acquired Hillcrest Apartments, which is currently in the PILOT program in November 2022. This application is being submitted as part of the acquisition of a portfolio of 3 properties: The Reserve at Mount Moriah, The Lakes at Ridgeway, and Stonegate. All three properties are included in one purchase agreement, and the ownership entities of each will have similar or identical ownership structures. Each property will operate independently, and the Applicant is requesting PILOT approval on all three. If these applications are approved, Capstone Realty and Management, through affiliated, single purpose entities, will own and be PILOT Lessee on 4 area projects. This property consists of 208 units. The property is currently in a declining condition and requires a large investment to bring the property back into good condition. The Applicant intends to invest over \$4,000,000 in renovations to the units and the common areas of the property. Years of deferred maintenance are catching up with the property, and this investment will drastically improve the condition of the property and the livability of the property for the tenants. Without the PILOT, the Applicant would invest significantly less capital in the project and would focus on unit repairs and the most pressing deferred maintenance. With the support of the PILOT program, Applicant will be able to deliver a number of tenant benefits that will immediately impact the lives of these residents. Further, the Applicant will be able to keep rents at an affordable level for its residents in the Target Market.

At a minimum 40% of the units (83) will be reserved for and rented to individuals or families making 60% or less of the AMI.
